INFORMATION SECURITY MANAGEMENT SYSTEM

As industry leaders in providing security services inclusive of manned guarding, key holding and alarm response we have an obligation to our customers, employees, legislative and regulatory requirements as well as business values to ensure that the information that we hold and process for operational purposes is processed fairly, lawfully and securely. In order for us to do this, we have determined a range of security controls, policies and procedures in line with the requirements of ISO 27001:2013 Information Technology – Security Techniques.

- This policy's goal is to protect our informational assets against all internal, external, deliberate or accidental threats.
- Top management have approved the information security policy & shall strive to continually improve the Information Security Management System (ISMS).
- The Information security policy and associated objectives ensures that:
 - **Information will be protected** against unauthorised access;
 - **Confidentiality** of information will be assured;
 - **Integrity** of information will be maintained;
 - **Availability** of information for business processes will be maintained;
 - **Legislative and regulatory** requirements will be met;
 - **Business continuity plans** will be developed, maintained and tested;
 - **Information security training** will be available to all employees;
 - **All actual or suspected information security incidents** will be reported to the Managing Director and will be thoroughly investigated.
- Procedures exist to support the policy, including virus control measures, passwords, continuity plans and effective risk management.
- Business requirements for availability of information systems will be met.

- The Managing Director is responsible for maintaining the policy and providing support and advice during its implementation.
- All managers are directly responsible for implementing the policy and ensuring staff compliance in the respective departments.
- Compliance with contractual security obligations.
- Compliance with the Information Security Policy is mandatory.

DATA PROTECTION

Our data protection policy sets out our commitment to protecting personal data and how we implement that commitment with regards to the collection and use of personal data.

We are committed to:

- ensuring that we comply with the eight data protection principles held within the Act
- meeting our legal obligations as laid down by the Data Protection Act 1998
- ensuring that data is collected and used fairly and lawfully
- processing personal data only in order to meet our operational needs or to fulfil legal requirements
- taking steps to ensure that personal data is up to date and accurate
- establishing appropriate retention periods for personal data
- ensuring that data subjects' rights can be appropriately exercised
- providing adequate security measures to protect personal data
- ensuring that a nominated officer is responsible for data protection compliance and provides a point of contact for all data protection issues
- ensuring that all staff are made aware of good practice in data protection
- providing adequate training for all staff responsible for personal data
- ensuring that everyone handling personal data knows where to find further guidance
- ensuring that queries about data protection, internal and external to the organisation, are dealt with effectively and promptly
- regularly reviewing data protection procedures and guidelines within the organisation.

We are fully aware of the changes in legislation regarding personally identifiable information and the introduction of The General Data Protection Regulation on 25th May 2018. In order to ensure that we are compliant for that deadline all of our operational policies and procedures are currently under review and all members of staff and affected third parties shall be notified of any changes that are made as a result of this.
