Current Role

Syed manages the Finance department. He has ultimate responsibility for the full compliance across all Financial aspects of the company.

Syed is responsible for maintaining the key financial and reporting systems including management accounts, financial accounts, cash and inventory management for the company.

He is responsible for compiling the annual statutory financial statements and consolidated financial statements at year end and ensures that the financial systems are robust, compliant and support company goals.

Syed oversees the management of accounts payable, accounts receivable and employee expenses functions. He also ensures that all Health & safety policies are reviewed, updated and observed in the department.

Experience

Syed has worked in the Finance Industry for 14 years and has a wealth of experience across all aspects of accounting and finance.

He has worked for 2 major Banking institutes within that time, and then chose to use his expertise within the security Industry, where he has excelled.

Syed has worked for SSG since its inception, and joined us as a finance manager. Due to his expertise and attention to detail, Syed was promoted to his current position. He is a calm, customer focused, forward thinking manager, and well respected within SSG.
